- The amendments in the bye-laws are made as per model bye laws defined in HRRS Act 2012.
- Provisions of RWA membership & voting rights of members are amended as per HRRS Act 2012. The amendment is as under:
 - Only a member who is on the membership list can contest the election.
- Provision to charge Rs 5000/- for updation of records on change of membership by way of sale/purchase of Flat. This provision was already approved 2 years back by governing body through its resolution. Now the same is also updated in the proposed amended bye-laws of society.
- Provision is made for transfer of membership to the legal heirs on the death of an apartment owner on submission of required documents.
- Provision is made to increase the strength of governing body from current 11 nos to 13 nos with inclusion of 2 additional executive members in Governing Body through election among the elected tower managers.
- Minimum requirement for female candidate for contesting the elections for tower manager was proposed to reduce from current two female candidates to one female candidate.

It was thus decided to keep the minimum requirement for female candidate as such in the amended bye-laws i.e. 2 female tower managers will remain mandatory in each tower.

On inclusion of 2 additional executive members in the Governing Body, Mr. Salegram Pandey suggested to examine the possibility of increasing 3 executive members instead of 2 so that governing body can have representation from all towers. To this, Mr. Jasuja replied that only two additional members can be increased in the Governing Body/Executive Body in SRS RWA as per collegium scheme defined in HRRS Act 2012. Agenda 3: Discussion and approval for revised DG power backup per unit rates.

Mr Neeraj Mittal presented four (4) different methodologies for determining the DG unit rates. The methodologies discussed are as under:

1. DG unit rates were determined based on actual diesel consumption and estimated DG units consumed by residents, vendors and common area
2. DG unit rates estimation made based on Standard Practices
3. DG unit rates were determined based on Average of DG unit rates in the nearby Residential Societies
4. DG unit rates were determined based on actual DG units produced as per meter installed at DGs and the actual diesel consumed.

The summary of the DG rates determined by above methodologies is tabled as under:

S. No	Methodology used to determine DG unit rate	Av. Rate obtained (Rs/kWh)
1	Based on Actual diesel consumption and estimated DG units Consumed by Residents, Vendors and Common Area	28.86
2	Estimation based on Standard Practices	26.34
3	Based on Average of DG unit rates in nearby Residential Societies	27.55
4	Based on actual DG units produced as per meter installed at DGs and the actual diesel consumed.	29.75
5	Average of all above 4 methods	28.13

The members of house were satisfied with the above calculations. However, some members demanded not to increase the DG rates in one go. On this, Mr. Jasuja suggested the revised rates to Rs 23/- per unit (kWh) of DG and suggested for reviewing the rates of DG annually based on the increase/decrease in diesel rates. The house agreed for revision of DG rates to Rs 23/unit and annual review of DG rates. It was also agreed by the house that with revision in DG unit rates, free DG units will be reduced to 4 units per flat from current 6 units per flat.

Shri Ashok Banerjee proposed the possibility of PNG connection in place of DG. Mr. Mittal replied that the possibility of conversion of DGs to dual mode i.e. 75% on PNG and 25% on diesel and quotes were already taken from two parties and also from Adani for connection of PNG.

The resident has proposed that the cost of maintenance and electricity for running this lift shall be borne by the RWA within the CAM. RWA presented the facts and calculations on the impact of installation of this lift on CAM.

Some members of the Collegium expressed concern over the additional burden on CAM, if more lifts are installed by the residents in other blocks of P9 tower. Mr. Jasuja explained that P-9 already has higher monthly fixed expenses compared to other towers and maintenance & electricity towards lift will further increase the expenses to about Rs 1.32 lakhs per annum on installation of 1 lift. However, RWA can bear the expense towards maintenance of one lift. In case, any more lifts are proposed to be installed in P9 tower, the maintenance and electricity expense towards the lifts in P9 tower shall be borne by P9 residents. The majority of house agreed that the CAM for P9 residents may be reviewed if more lifts are installed in future.

Members were then asked to vote and the question raised is "Should the installation of Lift in P9 at the cost of Resident on the terms discussed be allowed?"

Out of total 40 members present 28 voted in favor, 12 members voted against the installation of lift in P9 tower.
